

Broker Commission Statement

Redwood Commercial Brokers, 2026-09, revision 6

NET DUE FOR THE MONTH
\$437.45

MONTH IN PROGRESS, PROVISIONAL. This statement was produced before 2026-09 was over, so more money can still be booked into that month. It will not change: the run made once the month has ended is the next revision, and the definitive one.

Statement monthSeptember 1, 2026 to the last day of that month (business dates)

Revision6, superseding the previous revision of the same month

MOVEMENTS

EFFECTIVE	LINE	POLICY	DESCRIPTION	AMOUNT	PREMIUM IN IT
September 8, 2026	Premium collected	CGP-01061	Bound on 2026-09-08 through a locally signed webhook during development (pi_local_fafe3cc4); Stripe never collected this payment. Reversed by the coordinator per review finding F-B2-01 and Yoann's decision.	-\$1,253.20	-\$1,200.00
September 8, 2026	Premium collected	CGP-01062	Policy CGP-01062 premium, tax and fee collected at Stripe	\$3,556.84	\$3,450.75
September 8, 2026	Premium collected	CGP-01061	Policy CGP-01061 premium, tax and fee collected at Stripe	\$1,253.20	\$1,200.00
September 8, 2026	Premium collected	CGP-01707	Policy CGP-01707 premium, tax and fee collected at Stripe	\$1,253.20	\$1,200.00
September 8, 2026	Premium collected	CGP-01274	Policy CGP-01274 premium, tax and fee collected at Stripe	\$2,391.33	\$2,312.00
September 8, 2026	Commission earned	CGP-01274	Broker commission on the collected premium of policy CGP-01274	\$346.80	-
September 8, 2026	Commission earned	CGP-01062	Broker commission on the collected premium of policy CGP-01062	\$517.61	-
September 8, 2026	Commission earned	CGP-01707	Broker commission on the collected premium of policy CGP-01707	\$180.00	-
September 8, 2026	Commission earned	CGP-01061	Broker commission on the collected premium of policy CGP-01061	\$180.00	-

The two collected figures are the same money read twice: the cash is what the customers paid, premium plus state premium tax plus policy fee, and the premium is the part of it commission is earned on. Commission is that premium times the broker's rate, rounded down, and never touches tax or fee. Refunds are not netted into either figure; they are on their own lines, next to the clawback each one produced.

Net due is the movement of this broker's commission payable account in the ledger for this month. Running this month again for the same broker with the knowledge cutoff above reads the same journal entries and produces the same content hash, because a journal row can never change and its recording time is stamped by the database. One case does not reproduce: an entry whose database transaction started before that cutoff and committed after this run had read the ledger is absent here and present in a later run with the same cutoff. It cannot happen once the month is closed and quiet. A correction recorded after the cutoff produces a new revision instead of changing this one.

September 9, 2026	Premium collected	CGP-01707	Policy CGP-01707: the difference created by the corrected endorsement date, collected at Stripe	\$53.84	\$52.61
September 9, 2026	Premium collected	CGP-01707	Policy CGP-01707 endorsement premium and tax collected at Stripe	\$1,127.24	\$1,101.36
September 9, 2026	Commission earned	CGP-01707	Broker commission on the endorsement premium collected for policy CGP-01707	\$165.20	-
September 9, 2026	Commission earned	CGP-01707	Broker commission on the extra premium collected after the correction on policy CGP-01707	\$7.89	-

TOTALS

Cash collected from customers (premium, tax and fee)	\$8,382.45
Premium collected, which is the commission base	\$8,116.72
Commission earned on that premium	\$1,217.50
Commission clawed back on refunded premium	-\$780.05
Net due to the broker	\$437.45

Cash collected is premium plus state premium tax plus policy fee; premium collected is the part commission is earned on.

The two collected figures are the same money read twice: the cash is what the customers paid, premium plus state premium tax plus policy fee, and the premium is the part of it commission is earned on. Commission is that premium times the broker's rate, rounded down, and never touches tax or fee. Refunds are not netted into either figure; they are on their own lines, next to the clawback each one produced.

Net due is the movement of this broker's commission payable account in the ledger for this month.
